

FARSCOPE Centre for Doctoral Training

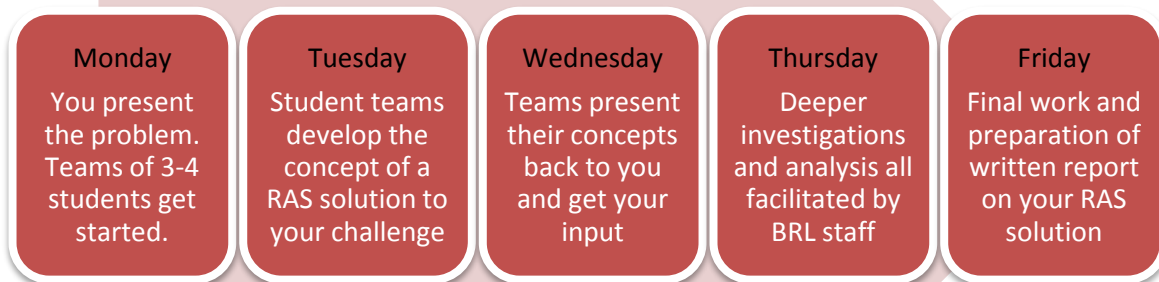

RAS STUDY GROUP: 15 -19 JANUARY 2018

WHAT COULD THE LATEST ROBOTICS AND AUTONOMOUS SYSTEMS DO FOR YOU?

At FARSCOPE we are training future innovators in **Robotics and Autonomous Systems (RAS)**.

At the RAS Study Group, our students will spend a week on intensive investigations into **your end-user challenges**.

HOW DOES IT WORK?

WHO CAN BRING CHALLENGES?

We welcome challenges from any organizations that are potential end-users of RAS. Places are limited so please contact us at farscope-cdt@bristol.ac.uk to discuss your challenge in advance.

WHAT COULD THE LATEST ROBOTICS AND AUTONOMOUS SYSTEMS DO FOR YOU?

Participation is free. You must send representative to present the challenge on Monday morning and discuss the solution concept on Wednesday afternoon. You are also welcome to join the student teams throughout the week and have a tour of the BRL.
